SUMMER 1948

KENWOOD IRIS GARDENS

SPRING 1949

(Mrs. J. F. Enigholz)

7595 Montgomery Road

Tel. SY. 7496

FORWORD

Each year brings in finer varieties, and we are endeavoring to list the best of the moderate priced Iris. If you live near enough, come and see them in bloom, and order for later delivery. Bearded Iris like sun and good drainage.

TERMS

Cash with order, or roots will be sent C.O.D. if a 25% deposit is made. No order accepted for less than \$2.00. Ohio customers add sales tax.

Shipments - Bearded Iris are shipped from July to early October. None sent in spring. Beardless Iris are planted in early spring or fall. All freshly dug on order.

Postage - All items prepaid on orders of \$2.00 and over, except for mass planting or mixtures. Please do not send stamps.

Location - We are located on the Three C Highway (State Route #3) about 10 miles from the business center of Cincinnati, and the Kenwood bus passes the place. You are cordially invited to visit the gardens at any time.

A SELECTED LIST OF THE NEWER IRIS

The following list has been carefully selected of varieties listing at 60¢ each and over. Any new variety not listed here, can be ordered at market prices.

Time of Bloom is indicated by E, early; M, midseason, and L, late. Height of the flower stalk in inches, is given in brackets after the time of bloom.

COLLECTION: 6 varieties, our selection, labeled, for \$3.10.

Introduction

The purpose of this study is to investigate the effects of the proposed changes on the system. The study is divided into two main parts: a theoretical analysis and an empirical study. The theoretical analysis is based on the principles of the system and the proposed changes. The empirical study is based on the results of the experiments conducted. The results of the study are presented in the following sections.

1. Theoretical Analysis

The theoretical analysis is based on the principles of the system and the proposed changes. The analysis is divided into two main parts: a theoretical analysis and an empirical study. The theoretical analysis is based on the principles of the system and the proposed changes. The empirical study is based on the results of the experiments conducted.
